

DANA

Spicer® Single Reduction Tandem Axles

DSH40

**More Power,
More Life.**
**Introducing the Spicer®
High Performance-40®
Tandem Drive Axle**

DSH40-(P)

“High Power Density™” (HPD™) design provides optimum axle performance with high torque, high horsepower engines in increased payload applications.

HIGH PERFORMANCE-40

FEATURES

Ratio coverage from 3.08 through 6.50.

No maintenance axle venting system.

Exclusive Microlip XL™ seal and slinger system.

Large 15.75" hypoid gearing.

On demand high efficiency lube pump.

Torque carrying systems made of high strength alloy steel.

Induction hardened wheel end spindles.

BENEFITS

Broad ratio coverage allows maximum performance.

No more blocked breather issues.

Keeps lube in and contamination out. Less pinion seal leaks than previous models.

Provides longer life than previous axle gearing.

Added spin-out protection, only works when required.

Ensures increased durability by using premium materials.

Provides durability in high wear applications.
