

**DRIVELINE COMPONENTS CATALOG
SLIP YOKE ASSEMBLIES**

**J300P-3
AUGUST 2008**

**Supersedes
Section 3, Dated
September 2004**

How To Use This Catalog

INCLUDED IN THIS CATALOG

Driveshaft Style slip yokes - page 3, Slip Flange- page 12, Splined Sleeves - page 13, Hex, Square and Round Hole- page 15, Transmission-type - page 16,

HOW TO IDENTIFY A PART USING THIS CATALOG

To identify any slip yoke, four pieces of information are required:

1. Determine Series
2. Determine spline O.D.
3. Determine number of teeth
4. Determine length - centerline to end/ face to end / end of spline to weld
5. Determine hub diameter (if a transmission-type slip yoke)

Series and all pertinent series dimensions appear as shown in the sample below:

1100 SERIES	E-2.656 D-.938	USE KIT 5-101X & 5-111X
--------------------	-----------------------	------------------------------------

Spline O.D. and number of teeth are found at the beginning of each data section--

1.062-16 Spline

Individual part data is shown following the spline data heading--

2.875	.938	500174-1	D1A	1-68-14	-	SR 1-3-88KX
--------------	-------------	-----------------	------------	----------------	----------	--------------------

Footnotes for parts and assemblies that are discontinued, will be discontinued upon depletion of stock, or not sold separately, are indicated by a symbol next to the part number. Match the symbol to the appropriate status at the bottom of the page. All other footnotes are located immediately below the yoke dimensional data.

IMPORTANT NOTICE: The data listed herein is correct to the best of our knowledge and belief; having been compiled from reliable and official sources of information. However, WE CANNOT ASSUME ANY RESPONSIBILITY for possible error.
